

2020-21 Mission: Four'dable Credit Policy

If Wisp Resort is closed due to COVID-19 related issue between December 11 and March 28 the purchaser of a Mission: Four'dable 4-pack of tickets will receive pro-rated credits towards the purchase of a Mission: Four'dable 4-pack next season per the following:

- Credits are only applicable in the event of COVID-19 related closures and do not apply to any weather-related closures, M:4 purchaser injury, health related absences, or other reasons.
- Closure credits would apply under the following COVID-19 related circumstances:
 - If a government entity requires closure.
 - If a resort closes of its own accord due to COVID-19 related issues.
 - If a government entity restricts travel in a way that prevents passage between an M:4 purchaser's primary domicile and home resort.
 - If a government entity issues a mandatory stay-at-home order covering the M:4 purchaser's primary residence.
- If closure is 15 to 25 days, purchaser will get credit for unused tickets of up to 25% towards the purchase of Mission: Four'dable for next season.
- If closure is 26 to 50 days, purchaser will get credit for unused tickets of up to 50% towards the purchase of Mission: Four'dable for next season.
- If closure is 51 to 75 days, purchaser will get credit for unused tickets of up to 75% towards the purchase of Mission: Four'dable for next season.
- If closure of 76 or more days, purchaser will get credit for unused tickets of up to 100% towards the purchase of Mission: Four'dable for next season.

By way of example, if an M:4 purchaser had used all four tickets and the resort were to be closed for 30 days, there would be no credit because all the tickets were used. If only one ticket had been used and the resort was closed for the same 30 days as the previous example, the purchaser would get a 50% credit towards the purchase of an M:4 quad pack next season. If the resort was closed for 80 days and the purchaser had not had an opportunity to use any of the tickets, the purchaser would receive a 100% credit towards the next year's M:4, in other words, next year's 4-pack would be free.
